

WOULD "BELL" CATS TO PROTECT BIRDS

CITIZEN'S SUGGESTION GIVEN TO COUNCIL—NO ACTION TAKEN.

APPOINT PARK POLICEMAN

Charles Andrus Will Look After the Parks and River Banks—Award Contracts.

The suggestion of a citizen that an ordinance be passed compelling every cat in Dixon to be "belled," thereby furnishing a warning to birds they are about to attack, was given to the city council this morning, but no action was taken. It was pointed out at the meeting, however, that in many cities similar steps have been taken to conserve song birds, and it may be that at some future time the commissioners will take heed of the matter.

Award Sewer Contracts.
The most important matter before the council this morning was the letting of four sewer contracts, all being awarded to Logan & Girtz of Elgin for an approximate total of \$5,000. The sewers are provided for under ordinances.

Lee Co. Improvement Assn. To Wage Campaign For Increased Crops

At the meeting of the Board of Directors of the Lee County Soil Improvement association, held recently, special attention was called to the shortage of foodstuffs and the high prices which are certain to result. It is every farmer's duty to practice every phase of good farming, which means intensive farming in order to keep up with the needed supply of foodstuffs for our country.

The best methods in brief include the following details:

The use of crops and varieties suited to your farm and locality. Best of seed properly cared for and treated when necessary, as the use of formaldehyde for smut in grains and scab in potatoes.

CONSCRIPTION PLAN OPPOSED IN HOUSE

Texas Governor Wires "Texas Boys Want Texas Officers".

Washington, April 10.—Congressional opposition sufficient to delay but not to defeat the administration's plans for the enlistment of the army and navy by conscription instead of by adherence to the volunteer system has developed. Chairman Dent of the committee on military affairs of the house told President Wilson that strenuous opposition existed in his committee against the administration plan.

Chairman Dent told the President that no matter what form the bill takes, there is no possibility of its being reported for at least a week, and that under no circumstances could it be enacted as permanent legislation but as exclusively a war measure limited in its life to the duration of the present war.

Texas was the first state of the union to exhibit recalcitrancy in the matter of the proposed conscription law. Governor Ferguson telegraphed to Representative Garner that Texas boys must have officers from the Lone Star state, and Garner at once laid the dispatch before the military affairs committee then in executive session.

COOP & LENTS BIG CIRCUS OPENS HERE

"DIXON'S CIRCUS" WILL SHOW IN NORTH DIXON APRIL 24 AND 26.

ONE WEEK OF REHEARSALS

Big Top Will Be Put Up Next Wednesday—Have Exceptionally Fine Equipment.

The Coop & Lents Enormous Shows United, Dixon's circus, will soon be ready for the opening of the season, which will take place in Dixon Wednesday and Thursday, April 25 and 26. Next Wednesday the "big top" will be set up on the old circus grounds in North Dixon, where for a week the entire performance will be rehearsed daily, and on the opening dates it is assured, with the amount of rehearsal which the management has outlined, that the performance will move smoothly and swiftly.

All of the animal acts will arrive in Dixon this week, the aerial and trick performers have been ordered to report early next week, and the musicians will also report at that time. The elephants and other inhabitants of the menagerie will be here the middle of next week, and, in fact, the entire circus will be assembled here fully seven days before the opening dates.

Have Great Attractions.

The Coop & Lents circus this year will have the strongest and most expensive collection of attractions and acts ever attempted by a circus of its size—and every Dixonite may feel a just pride in the fact that Dixon's circus will be one of the best attractions on the road.

During the winter a force of men has been very busy at the winter headquarters at the foot of Ottawa avenue and as a result the cars, wagons and in fact all of the equipment glistens under new, bright paint. The uniforms are all new and, much new apparatus will add to the attractiveness of the outfit.

Advertising Car Crew.

The crew of advertising car No. 1, numbering fourteen men, today started billing for the opening performances. Dixon was thoroughly covered today and tomorrow every city, village and hamlet within a radius of forty miles will be thoroughly "covered." From Dixon the circus goes to Belvidere, then to Oak Park, and after that into Indiana.

BRITISH OFFENSIVE STILL IN PROGRESS

ADVANCE NEAR LENS WAS EVEN MORE SUCCESSFUL THAN INDICATED.

CANADIANS HAD HARD FIGHT

(Associated Press)
The British offensive between Lens and St. Quentin, which is still in progress, has proven even more successful than earlier accounts indicated. British captures yesterday exceeded 9000 men and 40 guns. The Canadians, who had the hardest bit of the front to contend with, are now in full possession of the Vimy bridge, and with the ridge gone the whole German line, covering French towns and industrial districts to the north, becomes a wavering one. A German diversion southwest of Ypres failed.

The German official report says that heavy fighting took place on both sides of Arras and admits "the enemy has forced his way into parts of our positions."

Important Posts Seized.

The war on the western front, which has been moving more rapidly in the last five weeks, broke into full swing Monday. Widening the attacks that they have been directing against the retreating Germans in the sector of the Somme, the British struck still farther north, and in a series of assaults in a broad front, with Arras more or less the pivotal point, they drove the Germans from scores of important positions, penetrated far into the German lines and inflicted heavy casualties.

A visit to corps headquarters indicated that the number of prisoners taken in the last twelve hours will exceed 5,000.

Prisoners "Caged" Crowded.

The barbed wire "cages" or compounds built to receive prisoners that were expected to be taken were overcrowded long before noon, although the principal attack did not begin until shortly after dawn.

The heaviest fighting developed along a line a few miles southeast of Arras in a northerly direction to the neighborhood of Lens, but the actions extended far in the direction of St. Quentin.

In the territory captured was the famous Vimy Ridge, which had been fought over time and time again ever since the war was ten months old. The French had fought desperately and valiantly in an endeavor to wrest this vantage ground from the Germans, the battles costing both belligerents untold casualties.

Back of the northern end of Vimy Ridge lie the principal coal fields of France, which are still in German hands.

Canadians Take Ridge.

The fighting on Vimy Ridge was carried out by the Canadians, who had retained a footing on the ridge all winter, but always higher up was the enemy. On either side of the Canadians were English and Scottish battalions, and in the day's battle there was glory enough for all. The irrepressible "tanks" also shared in the honors of the successful assault.

'GERMAN SPY' NEAR LEE CENTER

Sheriff's Office Called to Round Up Dangerous Man.

Officials from the sheriff's office were called to the vicinity of Lee Center to apprehend a supposed German spy, whose action had greatly alarmed the people in that vicinity. Reports to the sheriff were to the effect that the man was taking pictures of culverts, bridges, farm houses, etc., and that his actions were such as to arouse suspicion. Arriving at the scene they found a tramp, who gave the name Frank VanSant, and whose "camera" proved to be merely a square bundle of belongings done up in a black cloth. He was brought to Dixon, locked up and may be arraigned for vagrancy.

JUNIOR CLASS D.H.S. TO PRESENT COMEDY

THE BLOSSOMING OF MARY ANN AT THE OPERA HOUSE FRIDAY EVENING.

CAST CAREFULLY SELECTED

Friday evening at the opera house the Junior class of Dixon high school will present the four act comedy, "The Blossoming of Mary Ann."

This delightful play is from the pen of Marion Short, the author of "The Grand Army Man" and other well known plays. The story is that of a little country girl who is neglected by a young college chap with whom she is in love. Her aunt, a New York society woman, takes her to New York and gives her the advantage of social training. When the country maid is presented to New York society she makes a decided hit, particularly with the young man she loves. But just as they are on the point of being reconciled an ambitious young society leader causes estrangement and Mary Ann goes back home to become a trained nurse. However, the troubles are finally straightened out and Mary Ann marries the man she desires.

The cast of the play has been carefully selected and they promise a full evening's entertainment. This is a play all can enjoy. You will laugh at Miss Sissy, the village dressmaker and gossip, and be entertained by the love affairs of the hired girl. The play abounds in such humorous situations. It is clean and wholesome. There is nothing suggestive or objectionable about a single line. Anybody who enjoys a clever play will like this.

Dixon High School Again Placed On Accredited List Of State University

Officials of the Dixon public schools recently received from the State University a list of the courses offered in the Dixon high school which are accepted at the university for entrance credits. Last year 25 1/2 units of work done in Dixon high were accepted for entrance credit, this year the number of acceptable units has risen to 29 1/2.

A unit is defined by the university as follows: A unit of credit for university entrance shall be given to approved high school courses which meet five times weekly for a period of not less than 36 weeks. Each recitation period shall be at least forty minutes in length and each shop or laboratory period shall be 80 minutes in length.

The range of work being done in the Dixon high school may be seen when it is understood that only 15 units are required for entrance to the State University and to all other higher institutions in the state and 16 units are required for high school graduation. Very few high schools the size of Dixon can boast of equipment and faculty organization sufficient to enable them to do the amount of satisfactory work that Dixon is doing.

This year the following course in the local high school receives credit for entrance at the State University, the number after each indicates the amount of credit allowed at the university: algebra 1 1/2, plane geometry 1, solid geometry 1/2, English composition and literature 4, Latin 4, German 2, ancient history 1, modern history 1, English and U. S. history 1, civil government 1/2, economics 1/2, business law 1/2, bookkeeping 1, physical geography 1/2, physics 1, chemistry 1/2, botany 1/2, zoology 1/2, physiology 1/2, art drawing 1, mechanical drawing 1, manual training 2, domestic science 2 and agriculture 1.

The university makes very rigid demands upon the high school before it will accredit a course. Teachers of a high grade are required, excellent equipment is necessary and the school plant must be modern and sanitary in every way. In addition to the above requirements the general spirit of the school must be such that good study conditions prevail throughout the high school. The above report was received after the university inspector had spent a day in the high school, visiting classes, checking up the teachers and equipment and studying the general spirit and work of the high school.

Parents and patrons are urged to visit the high school and all other departments in order to see the nature of the work being done.

Later in the spring an exhibit from the manual training, domestic science and art drawing departments will be held in the high school building.

CLEAN YOUR FURNITURE OFTEN

That is, if you want to preserve the beauty of its fine varnished and enameled surfaces.

Some folks never think of cleaning their furniture—even the fine pieces—except at the time of general house-cleaning in spring and fall. And this neglect is the reason why its beauty often rapidly fades.

Dirt—especially "invisible dirt"—is the worst enemy of fine varnish. It eats into the finish and destroys its life.

Get rid of it, quickly and easily, with Tobey Polish, made from the old secret shop formula of The Tobey Furniture Company (Chicago & New York). It is a perfect cleanser; requires no hard rubbing; wipes off dry. Nourishes the finish; maintains its full body and color.

Your dealer will supply you. Bottles, 25c and 50c; quarts, \$1. This mark on every package—

Saw Many Dixon People
Mrs. Robert Anderson and Mrs. Mumma spent the past week in Chicago at the home of Mrs. A. J. McDougall and while there had the pleasure of renewing their acquaintance with many former Dixon residents. They were entertained on one day in the beautiful apartments on North Clark street in which Mr. and Mrs. W. J. Price reside. On Thursday afternoon Mr. and Mrs. Alvin Dodd, who come to Grand Detour each summer to reside in their cottage, entertained for them Thursday afternoon, the guests including Miss Nettie Hunter, who made her home in Dixon with her sister, Mrs. LeWitt Owen, during the latter's residence here; Mrs. Ripley and daughter, Miss Bess, who spent the winter in Chicago; and Mrs. Amy Raymond, a former Grand Detour girl. Mr. and Mrs. Dodd gave the company a dinner in the evening. Mrs. Mumma also visited with Mrs. Ella Gorton and daughter, Miss Elsie, of Rogers Park. Mrs. Huntington Pratt gave a luncheon for them at the La Salle hotel on Wednesday and in the afternoon they visited the Colonial theatre, where they saw Geraldine Farrar in the famous picture, "Joan the Woman". The Easter crowds in the city were very interesting. On Palm Sunday they had the pleasure of hearing Gustaf Holmquist, wonderful baritone, sing "The Palms" at the Sunday Evening Club in Orchestra Hall.

AN INVITATION TO WOMEN
Women are invited to visit the laboratory of the Lydia E. Pinkham Medicine Co. at Lynn, Mass., and see for themselves with what accuracy, skill and cleanliness this wonderful remedy for women's ailments is prepared. Over 350,000 pounds of roots and herbs are used annually in making this famous medicine. The great bins of herbs, the huge tanks filled with the medicine ready to be bottled, and the bottling room where it is put up and labelled for the market, cannot help but impress them with the reliability of this good, old-fashioned root and herb remedy, which for the past forty years has been so successful in the home treatment of female ills.

THEY WERE RUNDOWN
How often we hear it said of a man or woman that "they were rundown in health" which accounts for their present sickness. For that reason it is important that when you find you tire easily, when your nerves are troublesome or your work is irksome, you should strengthen your system immediately with the blood-enriching, tissue-building food in Scott's Emulsion which contains pure Norwegian cod liver oil and is free from alcohol.

"Not a crack nor pinhole in it!"

Go to your windows now and examine the shades.
See if they are specked with those tiny holes and little ragged cracks that do so much to mar the looks of your windows. In

The Unfilled Grade of Brenlin Window Shades

Seismographs.

The seismograph is an instrument devised to register nervous shocks suffered by Mother Earth.

It is so sensitive that it can sit in Washington and quiver from the impact of an earthquake in Honolulu. Lead pencils are attached to its arms and legs so that their agitation is registered in permanent form which may be used as evidence against the earthquake if it denies it happened. Whenever a seismograph begins to

shiver and shake you may depend upon it Mother Earth is having a spasm somewhere in her anatomy.

Babies have spasms too, but they don't need a seismograph to let you know it. Not even at midnight. Or 3 a. m.

ILLINOIS MAY FORM ENGINEER REGIMENT

Room for 164 Vocations Made by War Necessities.

CHICAGO, April 10. Formation of an Illinois regiment of engineers to complete the organization of this state's first contingent of 20,000 to go into the trenches is urged by organizers of the First Illinois regiment of engineers. The nucleus of the force is company A, engineers, Illinois national guard, and recruiting headquarters are at 302 South Clark street. The company headquarters are at the Second regiment armory.

"An army corps without engineers is comparable to a ship without a compass," reads a bulletin issued by Colonel T. W. Wilhelm. "Civil engineers, mechanical engineers, electrical engineers, mining engineers, mechanics, handy men, all are needed."

Places for men of nearly every profession and craft are found in a company of engineers. A tabulated list exhibited by the recruiting bureau shows 164 vocations demanded by the duties of one company.

"Modern war is specialized engineering," recites the bulletin, "and America should have the services of its engineers to fight a winning war."

LEAGUE HEADS MAKE CLAIMS

Tener and Johnson Each Expects a Very Close Race in His Organization.

(Associated Press)

New York, April 10.—On the eve of the annual pennant races in the major baseball organizations the executives of both the National and American leagues have prepared the following statements for the Associated Press, outlining their views of the coming season's play:

THE NATIONAL LEAGUE.

(President John K. Tener)

Basing an ante-season judgment upon conditions as I find them wherever I go, I am led to believe that baseball generally will enjoy a prosperous season in 1917. Of course I make this statement mindful that the contingency of a war pressed with vigor on land and sea might act as a deterrent on what otherwise doubtless would prove one of the best years baseball has ever experienced. This applies to the minor as well as major leagues.

Speaking especially of the National league I am convinced that the race this year will be equally as keen and interesting as it was last year. I look for a great battle for honors right up to the end of the championship schedule. I am conscious that the general public expects the New York Giants to win the pennant without any trouble, in fact many think Manager McGraw will take his team to the front and gradually widen the gap between the Giants and the other contenders until the former will make a walk-over race of the schedule.

I do not entertain any such idea. The other clubs should give New York a stiff fight and stranger things in baseball have happened than that the favorite fail to win. It is true that offensively and defensively the Giants are a powerful combination, but Brooklyn, Philadelphia and Boston, all good teams last year and the Quakers and Braves all contenders for the title right up to the finish will have something to say about the disposition of the pennant this year. All three of these clubs look stronger than last year.

Then again the west may furnish some surprises that the public little anticipate. Undoubtedly Pittsburgh has strengthened by the addition of young material. These youngsters made the Pirates quite formidable at the close of last season. Mathewson may spring a surprise in Cincinnati. At all events the Reds are pretty certain to be superior to the form they showed last year.

Chicago may begin the season handicapped by the loss of Captain Doyle but the team may be expected to play the very best ball of which it is inherently capable under Manager Mitchell, for whose ability I have the highest respect. In St. Louis the new organizers are beginning the season on the policy of building from the ground up. Therefore Manager Huggins will be given a free hand not only to use all the young blood at his disposal but other new players will be sought with the hope that the team may be strengthened to become a contender for the pennant.

THE AMERICAN LEAGUE

(President B. B. Johnson)

In the history of the American league there was never a year when the organization was so well equipped for a championship race. A few days ago I received a letter from Connie Mack, in which he gave the assurance that he had a vastly improved team over the old club of last year, and one that was sure to prove a factor in the championship contest. If we can accept this declaration, then there are eight contenders well balanced for a gruelling fight this season.

Everyone will concede that Chicago, Boston, New York and Detroit are bound to be prime favorites. The Cleveland club has been strengthened greatly, which is attested by the fact that Morton shows this early in the spring all the strength he developed in the beginning of last season. Joe Wood claims his right arm has been well restored, so with Coveleskie, Bagby and Klepper in support, Cleveland is sure to have a formidable staff of pitchers.

Many wise baseball men contend that last fall that New York would have carried off the prize, had it not been for the innumerable accidents that put some of its best players out of commission during the summer.

The St. Louis club, under the leadership of Jones, must be reckoned with. Had the Browns started their tremendous drive a bit earlier in the season the pennant might have gone to the organization representing the city by the big bridge. We all know of Boston's worth, and the fighting spirit of the Senators, under the guidance of that wise and skilled manager, Clark Griffith.

U. S. MUNITIONS BOARD IS NAMED

Body to Co-ordinate Vast Civic and Military Demands.

EXPERTS WILL HANDLE WORK

Precedence of Army and Navy Orders and Military and Industrial Needs of Country to Be Under Direction of New Body Named by National Defense Board.

Washington, April 10.—The work of promptly equipping and arming the United States military and naval forces called into the nation's service to make war on Germany was placed under the control of a general munitions board, created by the council of national defense after a session of many hours devoted to consideration of pressing war measures.

The immediate efforts of the board will be directed along lines calculated to co-ordinate the making of purchases by the army and navy; to assist in the procurement of raw materials and of manufacturing facilities and to establish the precedence of orders between the war and navy departments and between the military and industrial needs of the country.

In an official announcement by the council of national defense it was stated that it is not intended that the newly created board shall have authority to issue purchase orders or to bind the government in contracts for purchases, as such matters will continue to be done by the respective federal departments. Nor is it intended to disturb the order of delivery of military and naval material, both domestic and foreign under existing contracts.

In obedience to the announced policy of the President and his advisers, the board will take full cognizance of the importance of early and prompt delivery of war materials now under contract, or subsequently to be ordered, for shipment aboard to the entente nations.

Personnel of Board.

Frank A. Scott of Cleveland, O., vice president of the Warner and Swasey company, munitions experts, is chairman of the board, which is composed of the following:

For the army: General Thomas C. Cruse, Colonel F. G. Hodgson, Colonel H. Fisher, Lieutenant Colonel J. E. Hoffer, Major P. E. Pierce, Major Charles Wallace and Captain A. B. Barker.

For the navy: Admiral H. H. Rowland, Admiral W. S. Capps, Commander R. H. Leigh, Commander T. A. Kearney, Dr. R. C. Holcomb, Paymaster J. H. Hancock, Lieutenant Colonel W. B. Lomly, and L. McH. Howe.

For the advisory commission: Bernard M. Baruch, chairman raw materials; Howard E. Coffin, chairman industrial; Julius Rosenwald, chairman supplies; Dr. Franklin Martin, chairman medical; Chester C. Bolton was appointed secretary of the board. The officers of the board were designated by the chiefs of the several departments and bureaus, under authority of the secretaries of war and navy.

No Minister of Munitions.

From the highest administration source the definite statement is forthcoming that President Wilson's cabinet will not be further increased to include ministers of munitions and transportation. The administration will rely for such technical aid as it may need upon advisory boards of highly specialized men in their respective fields.

Denials came from the war department that Major General Leonard Wood, assigned to command the newly created department of the south-east, would remain in charge of the defense of New York. The present plan is for General Wood to take charge of the new department about May 1, as originally ordered.

WILSON THANKS GEORGE V.

President Replies to King's Congratulatory Message.

London, April 10.—Thanks to King George for his "inspiring words" in greeting America's entry into the war, was expressed by President Wilson in the following message received by the king:

"Your eloquent message comes to me at this critical moment in our national life as proof of a community of sentiment among the free peoples of the world, now striving to defend their ideals, maintain the blessings of national independence and uphold the rights of humanity.

"In the name of the American people and the government to which they look for guidance, I thank you for your inspiring words."

SINGLE SCENE COST MORE THAN "

NO COMPARISON BETWEEN THE BIRTH OF A NATION AND INTOLERANCE.

"Intolerance," the most colossal spectacle ever conceived by the brain of man, and now a sensational success in many of the big cities of the country, is coming to the Dixon Opera House for three days, starting on Thursday, April 19th, with matinees for Thursday and Saturday. It is perhaps needless to say that this is the second and super-masterpiece of that modern wizard, D. W. Griffith, who gave to the world "The Birth of a Nation."

To compare the two creations is futile, for they are along such entirely different lines. One scene in "Intolerance" cost as much as did the entire "Birth" alone. "Intolerance" captivates by its very massiveness, and experts say that its equal will never be made. It took three years to film; 125,000 people were employed in the making, and the cost is claimed to be \$2,000,000.

As is quite generally known the theme of "Intolerance" is love's struggle throughout the ages. The scenes are laid in four ages of the world's development: ancient Babylon, the Nazarene's Judea, medieval Paris and a modern American city. The stories are separate, yet co-related, for each shows the miseries and oppressions caused by intolerance.

There will be a mammoth symphony orchestra and a chorus of highly trained voices to interpret the specially arranged music. A large corps of experts is carried to work the startling mechanical and electrical effects. In fact, the Griffith organization claims it has the largest and most perfect production now on tour.

MEDILL MCCORMICK'S ROAD

Medill McCormick's proposed relocation of the Byron road was defeated yesterday by Road Commissioner W. H. Dillon of that township following a hearing in the Byron town hall which was packed to the doors by interested people from Polo, Oregon, Dixon, Ashton and Rockford. Many addresses were made and petitions presented by both sides. At the conclusion of the arguments Commissioner Dillon declared that his interpretation of the Tice road law took the matter out of his jurisdiction and he ruled that the road should be maintained as it is. No motion for a rehearing of the case has been made.

EMERGENCY OPERATION

Everett Dutcher was suddenly stricken with acute appendicitis while at work at the office of the Grand Detour Plow Co. Monday morning and an emergency operation at the Dixon hospital was necessary. Reports today were to the effect that he was resting as easily as could be expected.

NORTH DIXON WON

The North Dixon sixth grade indoor baseball team defeated a team from the south side sixth grade Monday afternoon, 30 to 20. The North Dixon battery was Ryan and Hought, while Rubenstein brothers officiated for the losers.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if Kidneys feel like lead or Bladder bothers you—Meat forms uric acid.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

The Truth of the Matter.

Some men are enormously important. They regulate other men and boast of it. The truth is they are fools, and people are too polite to tell them about it.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

His Own Fault.
The old miser in the story who dropped a five dollar gold piece in the plate at church, mistaking it for a nickel, could get no great satisfaction out of the deacon, as will be recalled, but he was not the man to give up easily.

Accordingly he sought legal advice with a view of instituting a suit at law. But the lawyer whom he consulted was one of those rare and gifted souls who would much rather be witty than rich—or almost anything else for that matter.

"Sir," said he at once, "you have no case. You were guilty of contributory negligence."—Exchange.

Lemons Whiten and Beautify the Skin! Make Cheap Lotion

The juice of two lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp get in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoothen and beautifier.

Just try it. Make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should materially help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. It is wonderful for rough red hands.

Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.

ADDITIONAL SOCIETY

Chapter A. C. M. P. E. O.

The regular meeting of Chapter A. C. M. P. E. O., was held Monday afternoon at the home of Mrs. Clinton Judd, who, with her two daughters, Misses Myrtle and Grace was the hostess. The afternoon was an interesting one with the parliamentary drill in charge of Mrs. F. X. Newcomer who also gave the current topics for the day, and the paper of the afternoon written by Mrs. Ives and read by Mrs. F. L. Hamilton in Mrs. Ives' absence.

The meeting was called to order by the president, Miss Ruth Dysart and after the regular business Mrs. Ives' delightful paper on "The World of Woman's Clubs in Conservation" was read. She told of the work that had been done by woman's clubs in preserving beautiful parks, roads, bird and animal life, and the various beauty spots all over our beautiful land. She spoke of how much the club women had done to stimulate the sentiment of all school children toward the preservation of animals and birds and in the planting of trees. There are several beautiful spots in Illinois which the club women of the state wish to include among the state parks, and not the least of these is "The Pines" near Oregon. The Parliamentary drill and current topics followed.

Adjournment was taken and a social hour, with refreshments served by the hostesses, enjoyed.

It Works! Try It

Tells how to loosen a sore, tender corp so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so softened that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

D. A. R. Meeting

The Dixon Chapter of the Daughters of the American Revolution met at the home of the vice regent, Mrs. Collins Dysart, on Saturday afternoon, with Mrs. Woodburn and Mrs. Hitchcock as assisting hostesses.

After the usual opening exercises and the business had been transacted, little Sudora Countryman sang a solo song of Carrie Jacobs Bond entitled, "His Buttons are Marked I. S." Miss Eudora was accompanied by Miss Dysart and sang the sweet and touching melody so appropriate to the times in a very pleasing manner.

Miss Fannie Murphy gave a paper on "Colonial Gardens," written in charming style and describing some of the interesting gardens of the East. Most of the colonial gardens were patterned after those in England. "Ahommet said that if he had no leaves of bread he would sell one and buy haints for they would feed the soul. From the New England States to Georgia there were many beautiful homes each with its formal garden in the early days. Miss Murphy mentioned in particular the Middleton garden, perhaps exceeding all in beauty. It is said that Henry Middleton in 1740 employed fifty men for ten years in his garden. Few of these beautiful old colonial gardens remain and but a trace here and there indicate where they have been. The Van Courtlandt garden of New York is one of the oldest of these remaining gardens.

Miss Woodbridge read a "snort" from the papers of the State Conference recently convened at Danville, Ill. Nearly every chapter in the state was represented, the delegates were royally entertained by the Danville chapter, and the meeting was a great success.

Mrs. Hugnet furnished an interesting clipping, read at the conclusion of the program.

Refreshments were served by the hostesses during the general sociality prevailing at the close of the meeting.

Visit Ceylon

The most recent news from Mrs. Leonard Andrus and Miss Lucille Morris, received by relatives here the latter part of March, although the letter was dated February 1st, was from Colombo, Ceylon. Miss Morris stated that they were well and enjoying their trip. Ceylon, she declared, the most beautiful and picturesque of any they had visited in their travels. Their itinerary was to include two months in India.

MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

If cross, feverish, sick, bilious, clean little liver and bowels

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep, or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company."

Refuse any other kind with contempt.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

Here's a Suggestion. "Maybe times wouldn't seem so trying," said Uncle Eben, "if dey could out some sport into de game of livin' in give a cup or a medal or sumpin' to de champion economizer."

Country Club Supper

The scramble supper and dance of Monday evening at the armory, the opening social function of the season for the Country Club members, was a happy affair. More than two hundred gathered for the supper and many more came later for the dancing and cards, and the evening did not terminate until long after twelve o'clock. The music furnished by the Marquette orchestra was delightful and the company congenial, so nothing was lacking to make the evening a delightful one.

Those responsible for the success of the affair are Mrs. George Boynton, head of the general committee; Miss Mary Todd, head of the supper committee; and Mrs. Willard Thompson, Mrs. Tim Sullivan, Mrs. Alfred Rowland, and Misses Franc Ingraham and Neva McCleary, who assisted in both committees.

Already the occasional golfer is seen hieing out to the links, which are in superb condition as the keeper, Mr. Labes, has been out from the city a couple of weeks putting them in shape. Within a very short time work begins on the building of a good road from N. Crawford Ave. into the grounds, a stretch of road which has not been an unadulterated joy to the golfer who seeks to reach the grounds by automobile.
